

# COMMUNITY ADVISORY

**JANUARY 12, 2022**

QuadReal was informed on January 12 that there was a confirmed case of Coronavirus (COVID-19) at Westshore Town Centre. The person in question is an employee of Carter's / OshKosh and has not been at Westshore Town Centre since January 3, 2022. We are following the direction of Public Health authorities with regard to notification and disinfection and are implementing our virus protocol.

## **Overview of action**

- A deep clean of the store and all surfaces has been completed and all staff are self-monitoring for signs of symptoms
- Management of Carter's / OshKosh are working to ensure all employees and customers in the shopping Centre continue to be safe from any risk of transmission.

## **Minimizing risk to others**

The sick individual is not currently working in the building and will not return until they are confirmed to be well. In the meantime, the building remains open and continues to operate as normal.

We encourage tenants to monitor the health of their employees carefully, recommending they stay at home and seek medical advice if they feel unwell. And of course, we continue to encourage everyone to reduce the risk of transmission by washing/sanitizing hands frequently and thoroughly, as well as taking other advisable precautionary measures.

We sincerely appreciate the co-operation of the organization that brought this situation to our attention so we could advise others. If you have questions, please contact Island Health @ <https://www.islandhealth.ca/learn-about-health/covid-19> or call the Healthlink line @ 811.
